Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/520,112	Applicant(s) HAMADA ET AL.	
	Examiner Monique R. Jackson	Art Unit 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The amendment filed 9/12/08 has been entered. Claims 1-4 and 7-9 have been canceled. New claims 10-13 have been added. Claims 5, 6 and 10-13 are pending in the application. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Terminal Disclaimer

2. The terminal disclaimer filed on 9/12/08 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent issuing on U.S. Application No. 10/520,177 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Drawings

3. The drawings were received on 9/12/08. These drawings are acceptable.

Specification

4. The substitute specification filed 9/12/08 has been entered.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 1794

6. Claims 5, 6, and 10-13 are rejected under 102(a) or (e) as being anticipated by Metcalf et al (USPN 6,554,936.) Metcalf et al teach an elastomerized phenolic resin produced from curing a composition comprising NBR, zinc borate (reads upon inorganic filler), and phenol formaldehyde resin, and optionally reinforcing fibers such as aramid fiber; with the maximum parts by weight preferably being NBR-100, zinc borate-80, phenol formaldehyde resin-120, and zinc oxide-5; wherein a stoichiometric master batch is preferably provided (Col. 8, line 38-Col. 9, line 53.) Metcalf et al teach that the components of the composition are thoroughly mixed and then formed into a single ply calendered cured sheet (Col. 13-Col. 15.) Metcalf et al also teach that other inorganic flame retardants in addition to zinc borate can be utilized, wherein depending on the degree of flame retardance desired, a range of 1 to 150PBW can be employed (Col. 15, lines 44-59.) Metcalf et al teach that the most preferred phenolic resin is a resole type which does not require a hardener to properly cure, with acceptable formulation levels in the range of 1 to 300PBW (Col. 15, line 60-Col. 16, line 2.) Metcalf et al teach that the optional fibers including aramid fibers are preferably limited to a maximum of 40PBW because their high degree of reinforcement produces a very stiff and difficult-to-process material (Col. 16, lines 2-9.) Hence, based upon the above amounts, calculated against 100PBW of the NBR, the invention taught by Metcalf et al reads upon the instantly claimed gasket material.

Response to Arguments

7. Applicant's arguments with respect to claims 5, 6, and 10-13 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 1794

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R. Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 10:00AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on 571-272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
